Overall: MODERATE BULLISH

Score: +2 / +6 | Conviction: HIGH | Modules: 3/6

Bottom Line

Rate differential widening (CONFIRMED) and bullish technical setup provide high conviction. Cross-asset regime is TRANSITIONAL — no strong cross-asset confirmation; defer to rate differential and technicals. Watch 160.16 resistance and 152.70 support. A break of 160.16 would confirm bullish momentum; a close below 152.70 would shift bias bearish.
